UofL Hospital

What are SANEs?

A SANE is a registered nurse who has received advanced education and training regarding sexual assault and forensic nursing. SANEs complete medico-legal examinations, collect and preserve evidence, apply critical thinking skills and are considered an expert witness in the judicial system. SANE credentials are issued by the Kentucky Board of Nursing to RNs who complete this 40-hour didactic course and also complete the clinical requirements.

What is UofL SAFE Services?

UofL SAFE Services is a forensic nursing program at UofL Hospital serving victims of sexual assault and domestic violence. SANEs employed by SAFE Services are PRN employees of the hospital responding on an on-call basis when victims present at participating hospitals and/or the Center for Women and Families. PRN SANE staff take a minimum of 32 hours of call per month, with most schedule openings on evenings, nights and weekends. SANEs are also required to attend bi-monthly staff meetings. SANEs may be dually employed in other areas of UofL Hospital. SANEs may be asked to respond to sexual assault victims at a number of local emergency departments as well as the Center for Women and Families SAFE Clinic. PRN SANEs are compensated for their on-call time as well as on a per case basis. SANEs must have reliable transportation and the ability to work independently to be successful in their role. For additional questions about the PRN SANE positions email safeservices@ulh.org

UofL Hospital SAFE Services Employment:

Completion of the SANE Course does not guarantee participants employment with UofL SAFE Services. SANE RNs are welcome to apply for open PRN positions through the UofL Health website.
